

Puppy Chew Toy Drive

National English Shepherd Rescue (NESR) is sponsoring a toy drive for the many puppies born to the English Shepherds rescued in Montana in December. We estimate that over 100 puppies will have been whelped by the dogs involved in the rescue. As you can imagine, this is an extraordinary number of ES pups to handle and the volunteers working with these dogs would appreciate receiving appropriate chew toys for these puppies.

Appropriate chew toys are solid rubber bones and balls made by "Kong," Nylabones and Gumabones in a variety of small sizes suitable for ES pups.

We cannot use any fabric, fur or soft stuffed toys, or toys with plastic squeakers in them. These will just be destroyed and present choking hazards to the pups. If you would like to help the puppies, please send appropriate chew toys (or order online and have it shipped) to one of the following volunteers:
